

Freedom HSA™

Need another reason to buy a Freedom High Deductible Health Plan?¹

How about an automatic deposit in your new Health Savings Account (HSA) equal to your first month's premium? (It's like paying your first month's premium to yourself!)

It's called the **HSA Accelerator program** — available on all new Freedom High Deductible Health Plans combined with a Freedom HSA.²

Here's how it works:

- 1 You apply for a Freedom High Deductible Health Plan and open a Freedom HSA
- 2 To qualify, you must submit your Freedom HSA health savings account application along with your first month's premium, application fee, membership dues and health insurance application.
- 3 After the 30-day free-look, an amount equal to your first month's premium (minus application fee and membership dues) is deposited directly into your personal Freedom HSA account.³

No strings. Ready to use. Ready to start earning interest.

Need more reasons?

- *Do the math* — The deposit amount equals a premium discount of more than 8%.
- *Use HSA deposit dollars right away* — Put your account to work to pay for doctor's visits, prescription drugs and more.
- *Access your HSA funds with no hassle* — Take advantage of secure online banking, friendly customer service and a convenient Benny™ debit card.
- *Earn money on your money* — Your HSA tax-deferred account earns a competitive interest rate on balances starting at \$500.

Plug into the fastest growing trend in medical plans. Start saving today.

¹ The Freedom High-Deductible Health Plan is underwritten by Companion Life Insurance Company, Columbia, S.C.

² The Freedom Accelerator program is not available in the states of Montana or North Dakota. IHC Health Solutions administers the HSA account. IHC Health Solutions reserves the right to modify or discontinue this program at any time.

³ Clients must choose a 15th of the month billing date with a 15th of the month effective date to receive credit for a full month's premium.
